

# Configuring Vidizmo

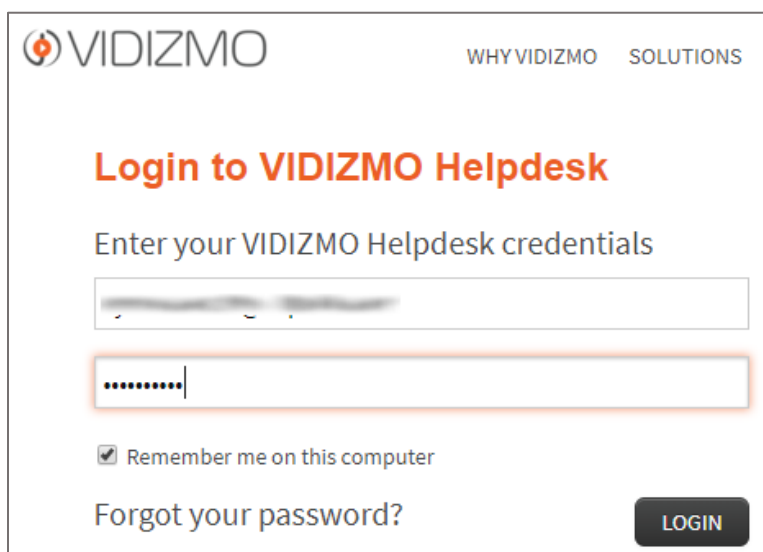

Configuring Vidizmo for single sign-on (SSO) enables administrators to manage users of Citrix ADC. Users can securely log on to Vidizmo by using the enterprise credentials.

## Prerequisite

Browser Requirements: Internet Explorer 11 and above

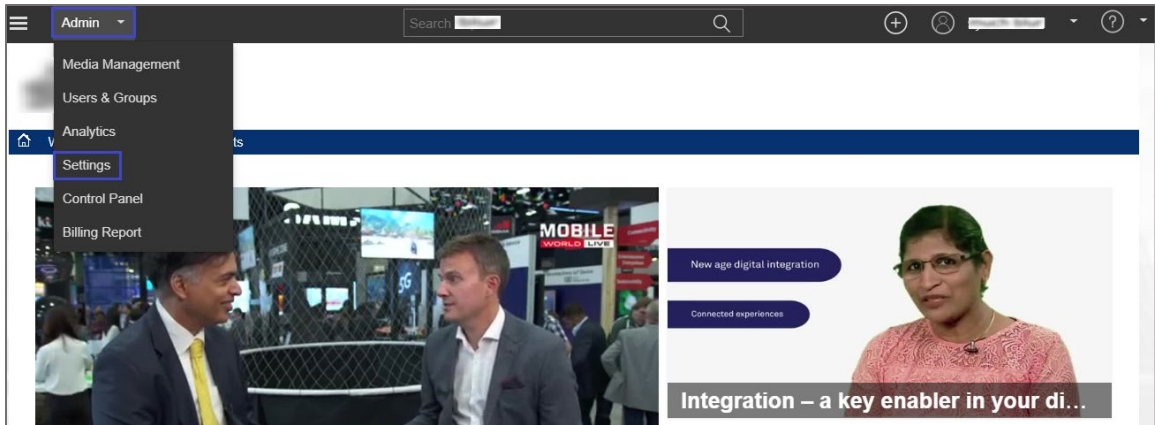

## To configure Vidizmo for SSO by using SAML:

1. For login assistance, contact the Vidizmo support team. They will provide you with the SAML login URL and credentials.
2. Type your Vidizmo admin account credentials (**Email address** and **Password**) and click **LOGIN**.

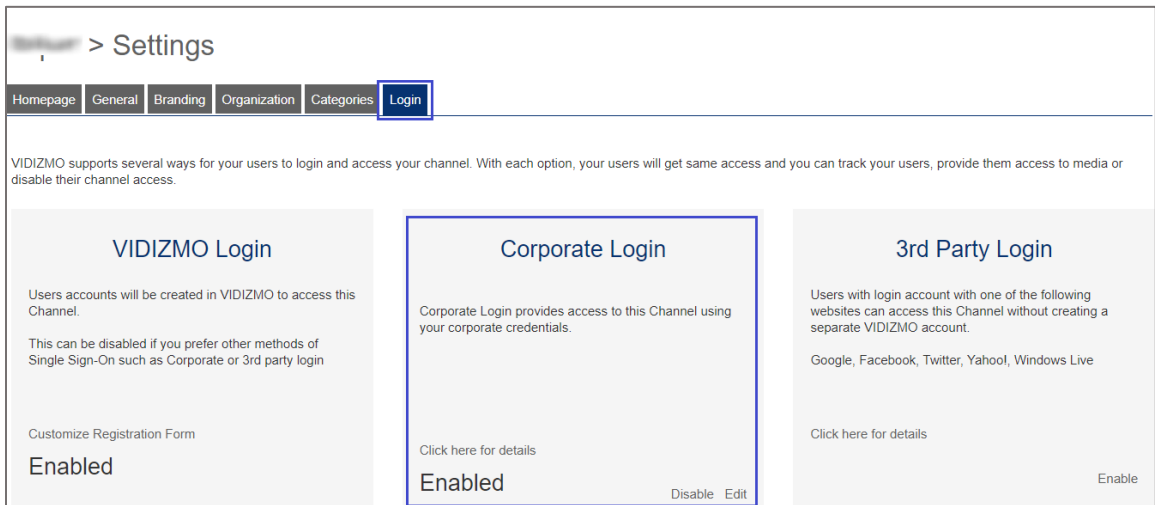

The screenshot shows the Vidizmo Helpdesk login interface. At the top left is the Vidizmo logo, and at the top right are links for 'WHYVIDIZMO' and 'SOLUTIONS'. The main heading is 'Login to VIDIZMO Helpdesk' in orange. Below this is the instruction 'Enter your VIDIZMO Helpdesk credentials'. There are two input fields: the first is for the email address and the second is for the password, which is currently masked with dots. Below the password field is a checkbox labeled 'Remember me on this computer'. At the bottom left is a link 'Forgot your password?' and at the bottom right is a black 'LOGIN' button.

3. In the top-left corner, click **Admin** and select **Settings** from the drop-down list.

4. In the **Settings** page, click the **Login** tab, and then click **Edit** in the **Corporate Login** tile.

5. Select **Identity Provider (SAML)** from the drop-down list and enter the values for the following fields:

Field Name	Description
Login URL	IdP logon URL
Sign-In Caption	Citrix
Sign-In Caption Tooltip	Tooltip name

### Corporate Login

Back Update

11. Select the **Allow embedding on above domain(s) only** check box and click **Done**.
12. Click **Update**.
13. In the top-left corner, click **Admin** and select **Users & Groups** from the drop-down list to add new users.

14. Click **Add Users**.

The screenshot shows the 'Group Members' interface. At the top left, there is a search bar labeled 'Find User or Group' with a magnifying glass icon. Below it are several filter dropdowns: 'Users', 'All Roles', 'All Users', and 'Enabled'. On the right, it says '3 User(s)'. The main area is a table with columns: 'Name', 'Joined', 'Status', 'Last Login', and 'Action'. There are three rows of user data. At the bottom, there is a 'Bulk Edit' dropdown and a 'Next >>' button. The 'Add Users' button is highlighted with a blue box.

	Name ^	Joined ^	Status	Last Login ^	Action
<input type="checkbox"/>	[Redacted]	9/21/18	Enabled	9/21/18 04:56 PM	[Edit] [Delete] [Key]
<input type="checkbox"/>	[Redacted]	10/2/18	Enabled	10/5/18 01:00 PM	[Edit] [Delete] [Key]
<input type="checkbox"/>	[Redacted]	9/17/18	Enabled	10/10/18 07:45 AM	[Edit] [Delete] [Key]

15. In the **Add New Users** page, enter the email addresses of the users and select their role from the **Select Role** drop-down list.

The screenshot shows the 'Add New Users' page. It has a title '> Add New Users' and a subtitle 'Provide list of email addresses separated by comma to invite multiple users.' Below this is a large text input field. To the right, there is a 'Select Role' dropdown menu with 'Viewer' selected. The dropdown menu is open, showing options: 'Viewer', 'Contributor', 'Moderator', 'Administrator', and 'Manager'. At the bottom, there is a 'Send Email Forcefully' checkbox with the text 'Add a personalized message' below it. On the right, there are 'Cancel' and 'Add Users/ Groups' buttons. The 'Add Users/ Groups' button is highlighted with a blue box.

16. Click **Add Users/Groups**.
